

PAGES READERS GROUP BOOK REVIEW

Tick Tock by Gail Ramsey

Tick Tock is a “mini-suspense” novel one could easily read in two or three days. Gail Ramsey did a good job of defining the personalities of the characters Spiegel Cullen, successful and driven, yet but extremely confused about her love for current and former men in her life. A good book will let you easily jump into the characters shoes. With Tick Tock, you find yourself questioning what judgments you would make when it

comes to the relationship between the men that Spiegel invests her emotions. You find Brianna is clearly a spoiled, troubled rich daughter of an alcoholic dysfunctional congressional representative. All of this brings a taste of reality to the story as “in real-life” people experience the very same dilemma.

The storyline plays into the typical aspects of a crime involving the unknown and the known. Denial, money, lust, jealousy and power wielded with money and of course the final revelation of the killer. The story flows well and provides an ending that could very well tie into a sequel...“And the Clock struck two”?

Tick Tock is an excellent reading choice for that Saturday afternoon on the chaise lounge and for any book club looking for a new and interesting novel.

TICK TOCK – MARCH 2005
